

IP65 LED Downlight

Description:

Recessed IP65 Waterproof LED Downlight is required for zone regions near water sources. It makes the room look better and they will have a higher resistance to steams. This downlights finish paint by Anti-Corrosive materials and fully water-resistant which means they are the perfect option for outdoor LED downlights .

It is Ideal for for your planned retrofit or new constructing, Creating tremendous energy saving at a extremely affordable price

Application:

- Outdoor Corridors
- Seashore Lighting
- Bathroom
- Hotel Lighting Restaurant
- Residential Lighting

		>90 LM/W logo"/>				

Information:

Features:

- Deeply LED Inside with Anti-glare rings UGR<19
- Full lamps meets IP65 protection grade
- SDCM=3
- Extremely long lifetime
- Energy savings
- Maintenance savings
- instant light-up
- Excellent light quality
- No UV or IR radiation
- Environmentally-friendly: no mercury
- Medium useful life > 50,000 hours (L80B50) at ambient temperature of 25 ° C

Specification:

- Power supply : Lifud / Eaglerise
- Power Factor : >0.5 / > 0.9
- Lighting Source: Bridgelux
- Reflector : White or Black
- Housing material: aluminum.
- Housing color: White Black
- Working environment temperature: -20oc ~ +45oc.
- Lamp Certificates: CE ROHS
